It's not easy to put a face to our name.  
At Service Wire, there are a lot of people  
standing behind our products. From the  
product engineer to the sales representative.  
From the production supervisor to the  
freight manager.

Everyone at Service Wire plays an important  
role in the quality products and service our  
customers have come to expect.

We all stand behind our products and that  
shines through in our service.

We out *service* the competition!
