

# PULL AHEAD

*with Prefab Twisted Cable*

ServicePlex® is an assembly of single conductors twisted to create a uniform construction. This solution pulls like a single cable without the jamming that occurs with traditional parallel pulls. Featuring ServicePRO-X® Insulation-No Lubrication Required (#6 AWG and larger) and available with numbered, striped, or colored conductors for quick and easy phase identification.

FACTORY TWISTED  
SINGLE CONDUCTORS  
(with optional ground)

Number and size of conductors possible may vary by pull plan.

**XHHW-2**  
600/1,000 Volt  
2-7 Conductors  
#14 AWG – 750 Kcmil

**USE-2 or RHW-2**  
1,000/2,000 Volt  
2-7 Conductors  
#14 AWG – 750 Kcmil

## FASTER WIRE PULLS

*vs. Traditional Methods*

### THE BENEFITS

#### Cost Savings

Reduces scrap (no long/short legs) and pulls from a single reel, reducing storage, setup, and waste on the jobsite.

#### Ease of Installation

Unified diameter eliminates jamming and provides uniform pulling tension. Available with factory-installed pulling heads for even faster pulls.

#### Engineered Advantages

XLPE (thermoset) insulation performs substantially better than THHN. It's Hospital Grade, dual rated for 600V/1kV, and can withstand colder temperatures.

## DEPENDABLE LEAD TIMES

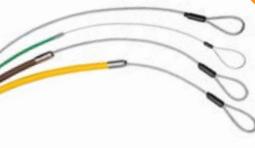

Eliminate inventory and ship direct to the jobsite with quick leads and dependable, damage-free delivery from any of our nationwide manufacturing facilities.

### INSTALLATION:

#### CONDUIT

Eliminates jamming in conduit for easier pulls into the raceway.

*Available with PRE-INSTALLED PULLING HEADS*

#### CABLE TRAY

Simple, orderly installation into cable tray, with fewer tie-downs required.

#### DIRECT BURIAL

ServicePlex® is available in RHW-2 for easy direct burial installations.

**“The pull is unbelievable... ten times more efficient than paralleled wire, from setup through installation.”**

**CONSTRUCTION MANAGER**  
*Fisk Electric*

### TESTIMONIALS

“We would have spent a better part of the day working our way through mud to set up four individual reels. ServicePlex® eliminated this problem and our pulls went great.”

*PROJECT FOREMAN, Guarantee Electric*

“We made our pull from one reel and needed only one man to feed it into the conduit. In tight spaces, you can only fit so many people.”

*PROJECT FOREMAN, Summit Electric*

### APPLICATIONS:

#### HEAVY COMMERCIAL

Data Centers  
Roadway  
Universities  
Wastewater Treatment

#### INDUSTRIAL

Automotive  
Food & Beverage  
Pulp & Paper  
Refineries

#### UTILITY

Direct Burial  
Overhead Distribution  
Secondary Distribution
