**Interlocked Armor**

- **Feeder MC Cable**
  - #8 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, aluminum or galvanized armor

- **EnviroPlus® (LSZH) Armor**
  - Factory Mutual Group 1 Rated
  - #14 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, EnviroPlus® (LSZH) Factory Mutual Group 1 jacket (-40°C)

- **ServiceTeck® (Teck90)**
  - #14 AWG-1000 Kcmil multiconductor, 600V, 1kV, or 2kV copper, aluminum or galvanized armor

- **Interlocked Armor/PVC Jacket 600V**
  - #14 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, aluminum or galvanized armor, overall PVC jacket
  - 2.4kV, 5kV, and 15kV available

Available with Water Tight or Non-Water Tight Connectors

**Tray/Power* and Copper Service Entrance**

- **XLP/PVC Tray Cable**
  - #14 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, available 5 mil copper tape shield

- **ServiceCPE®**
  - #14 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, available 5 mil copper tape shield

*Available with Rip Cords

- **EnviroPlus® (LSZH) Tray/Power**
  - Factory Mutual Group 1 Rated
  - #14 AWG-1000 Kcmil multiconductor, 600V or 2kV copper, available 5 mil copper tape shield, EnviroPlus® (LSZH) Factory Mutual Group 1 jacket (-40°C)

- **SER/SEU Copper Service Entrance**
  - #8 AWG-4/0 AWG multiconductor, 600V copper

**ServiceDrive® and ServiceDrive®Plus ASD/VFD Cable**

- **ServiceDrive® Patented Tray/Power Cable**
  - #14 AWG-750 Kcmil multiconductor, 600V or 2kV copper, 5 mil copper tape shield, overall PVC or EnviroPlus® (LSZH) Factory Mutual Group 1 jacket (-40°C)

- **ServiceDrive® Patented Armored Cable**
  - #14 AWG-750 Kcmil multiconductor, 600V or 2kV copper, aluminum or galvanized armor, 5 mil copper tape shield, overall EnviroPlus® (LSZH) Factory Mutual Group 1 (-40°C) or PVC jacket

Complete Patented Solution Includes Connectors and Termination Kit

**ServicePlex® (Twisted) and Aerial**

- **Featuring ServicePRO-X® No Pulling Lubricant Required (#6 AWG and Larger)**
- **ServicePlex®-Alternative to Paralleling**
  - #14 AWG-1000 Kcmil multiconductor, copper, 600V/1kV XHHW-2 or USE-2
  - 2kV ServiceGuard® RHW-2

- **400 Hz Twisted Cable**
  - #8 AWG-1000 Kcmil multiconductor, copper, XHHW-2, also available USE-2

Available with Pre-Installed Pulling Heads

- **Copper Service Drop Triplex/Quadruplex**
  - #8 AWG-1000 Kcmil multiconductor, copper, XHHW-2 or USE-2

- **Preassembled Aerial**
  - Copper-clad steel, galvanized steel, stainless steel (304, 316), or PVC coated messengers
  - 600V, 1kV, 2kV, 2.4kV, 5kV, and 15kV engineered and composite constructions available
Single Conductors

Featuring ServicePRO-X® No Pulling Lubricant Required (#6 AWG and Larger)

**XHHW-2**
#14 AWG-1000 Kcmil, CT Rated, 600V/1kV copper, available in colors, tinned or VW-1

**USE-2**
#14 AWG-1000 Kcmil, CT Rated, 600V/1kV copper, available in colors or VW-1

**ServiceSolar® Photovoltaic 600V/2kV**
#14 AWG-750 Kcmil, RHW-2 (-40°C), for use in solar systems up to 2kV UL 4703
Available with EnviroPlus® (LSZH) Factory Mutual Group 1 (-40°C) jacket.

**ServiceGUARD® RHW-2**
#14 AWG-750 Kcmil, CT Rated, 2kV copper, available in colors or VW-1

**Available with Pre-Installed Pulling Heads and Compartmental Reels**

Other Single Conductors

**THW & THW-2**
#14 AWG-750 Kcmil, VW-1, CT Rated, 600V copper, available in colors

**SIS**
#16 AWG-4/0 AWG, VW-1 rated, tinned, fine strand or Class B 600V/1kV copper, switchboard wire, dual rated SI/A HHW-2

**Weather Proof Line Wire**
#6 AWG-750 Kcmil, hard, medium hard, soft drawn copper poly line wire

**Cathodic Protection**
#8 AWG-4/0 AWG stranded copper, HMW-PE

**Transformer Riser Wire**
#8 AWG-#2 AWG solid and stranded copper

**Jacketed Single Conductors**
#14 AWG-1000 Kcmil, CT rated (1/0 AWG and larger), PVC, ServiceCPE®, or EnviroPlus® (LSZH) Factory Mutual Group 1 (-40°C) jacket

**Bare Copper**

**Bare Copper**
#14 AWG-4/0 AWG (solid), #14 AWG-1000 Kcmil (stranded), available hard, medium hard, soft drawn

**Tinned Copper**
#2 AWG (solid), #8 AWG-750 Kcmil (stranded)

**Plater Wire**
#24 AWG-#2 AWG solid copper, soft drawn

**Contact Wire for Electrified Rail Systems**
1/0 AWG-400 Kcmil copper and bronze alloys, round, grooved, fig.8, fig.9 onstructions

**Submersible Pump Cables**

**Twisted**
#14 AWG/2 conductor-#2 AWG/3 conductor

**Round Jacketed**
#14 AWG/2 conductor-#2 AWG/3 conductor

**Rainbow Wire®**
#14 AWG/2 conductor-#6 AWG/3 conductor

**Flat Yellow**
#14 AWG/2 conductor-#6 AWG/3 conductor

**Flat Black Heavy Duty (THW/PVC)**
#14 AWG/2 conductor-#2 AWG/3 conductor

**Flat Black Super Heavy Duty (RHW-2/PVC)**
1/0 AWG/3 conductor-500 Kcmil/3 conductor

**Irrigation Cables**

**Underground Feeder UF/Type TWU**
#18 AWG-#8 AWG (solid), #6 AWG-4/0 AWG (stranded), 600V copper

**Underground Feeder Golf Course Sprinkler- PE**
#18 AWG-#8 AWG (solid), 600V copper

**Sprinkler Control Cable**
#18 AWG/2 conductor-#18 AWG/13 conductor, solid copper

**Decoder Control Cable**
#14 AWG/2 conductor-#12 AWG/2 conductor, solid copper

**ID Wire**
#14 AWG/2 conductor-#12 AWG/2 conductor, HD-PE Jacket Copper

**Underground Landscape Lighting**
#16 AWG/2 conductor-#8 AWG/2 conductor, 30V copper
